

Enhance service delivery and patient care, with effective and easy to clean mobile device charging and storage

We understand that 21st century healthcare demands instantaneous connectivity and always-on mobile devices. That's why LapCabby deliver space saving solutions to keep devices with private patient data secure and away from prying eyes yet easily transportable and fully charged for when they are needed most.

Key benefits of LapCabby in Healthcare:

- ✓ Ergonomic and compact models
- ✓ Easy to clean to reduce the risk of infection
- ✓ Cost effective models and a lifetime warranty to deliver ROI
- ✓ Desktop storage solutions – perfect for nurses stations
- ✓ Transportable solutions – to move devices quickly and securely
- ✓ Supports transition to paperless NHS
- ✓ Programmable charging schedules ensuring charged devices – around the clock
- ✓ Integrated safety features to protect users and devices
- ✓ Stringently tested to guarantee optimal health and safety compliance

Facilitate mobile workers and the digital NHS

Desktop Range

Our DeskCabby fits neatly on a desktop while still offering room for up to 12 USB - powered tablets, making it an ideal solution for nurses stations, office areas, wards and surgery receptions.

UniCabby

Our UniCabbys are compact, to save space in surgeries, labs and on the ward and are designed to be easily transported, secured and cleaned.

Locka Range

LapCabby's Locka enables you to charge and secure a myriad of devices and accommodate a growing mobile user base. With Locka you can create a central 'hub' for charging devices including Chromebooks, laptops and tablets - to support staff on wards, ensure devices are always ready for use and support the transition to the digital NHS.

TabCabby Range

Our TabCabbys will securely and safely transport and charge devices in busy hospital environments. Small enough to manoeuvre busy wards, easy to clean to keep infections at bay and simple to use are just a few reasons the TabCabby is the perfect choice for delivering digital Healthcare.

Boost+

Boost+ is our portable charging and synchronisation unit, charging and syncing up to 16 mobile devices without having to pack them away, making it great for busy hospital environments utilising a mix of mobile devices.

Lyte Range

Providing the flexibility to deliver storage for mobile devices, in space saving simple to clean solutions. Securing multiple devices in one unit or offering single door per device compartments, the Lyte range is perfect for securing and charging devices that hold sensitive patient data. With floor standing, desktop and wall mounted solutions - There really is a Lyte for any device or space - from nurses stations, office areas and busy wards to surgery receptions.

Portable Range

Our portable GoCabby is designed to accommodate all kinds of USB-powered tablet devices including iPad, Android and Kindle Fire. GoCabby has Cambrionix U16S technology to sync 16 tablets, and its unique design means you can charge and update devices even when the case is shut and locked.
