# LapCabby

New thinking in IT storage

# Welcome to LapCabby

**Emma Neath**

LapCabby President

At LapCabby we understand that when it comes to storing and charging your devices you want something that looks good, won't let you down and above all is safe. We've been established over 20 years and in that time have worked tirelessly to develop products that meet the complex needs of a multitude of industries.

Our products may have changed over the years, the team has certainly got bigger and our company has gone from strength to strength, but our passion remains the same. Our commitment to customer satisfaction and high-quality products has earned us one of the best reputations in the industry. We pride ourselves on outstanding customer service and being available to our trusted partners all over the world whenever they need us. As a family run business, we rely on our team of great people to do this.

As technology has evolved, so has our product range. From laptops and chromebooks to tablets and mini devices, we've developed unique solutions to meet the specific needs of your devices. We recognize that technology is ever changing and therefore build products that will serve you well in to the future.

We would like to welcome you as our customer and look forward to working with you soon.

Emma Neath

## Education

From kindergarten, grade school and college to universities and libraries, LapCabby solutions slot perfectly into any educational space – to deliver classroom ready devices and support the digital curriculum, every time. Our product range has every classroom or campus requirement covered. Static solutions to stay in the classroom, desktop charging for power pick me ups, carts to move devices from class to class, transportable solutions for field trips and lockers to create central charging hubs.

## Healthcare

Mobile devices play a huge part in delivering 21st century healthcare and enable healthcare staff to enhance patient care. LapCabby solutions for Health are compact, to save space in surgeries, labs and on the ward and are designed to be easily transported, secured and cleaned.

## Retail

Mobile devices are driving innovative and exceptional customer service and are essential in supporting today's dynamic, retail workforce. Managing stock, processing orders, gathering market intelligence, accepting payment and so much more. LapCabby deliver solutions to store, charge and sync any mobile device – so that your team can focus on service and sales.

## Corporate

Fast paced organizations demand technology to accelerate business performance. And as organizations purchase more and more devices – securing, charging and syncing them must not be overlooked. LapCabby has a solution for any space or device – to protect your investment and ensure your workforce has devices that will accelerate your business.

## Industrial

In today's rapidly evolving environment, industrial work spaces are busier than ever. There is no time to worry about is the performance and safety of your supportive technology. LapCabby provide robust and reliable solutions that come fully assembled, so you waste no time in getting yours up and running.

## Banking

As mobile devices such as iPads/tablets, iPods, handheld POS devices and laptops become part of the modern-day method of banking, corporations need to consider everything from security of the data stored on the device to scanning devices for instant paperwork uploads. LapCabby provides static and portable secure storage to charge each device keeping data safe without encroaching into sales real estate in-store .

## Government

The mobile world will directly impact nearly every aspect of government operations including delivery of services, citizen engagement, allocation of IT resources, staff support, and training and device storage and charging should be an integral part of any mobile. LapCabby deliver solutions to store, charge and sync any mobile device – so that your team can focus on public service delivery.

# What makes us unique?

## Crafted with care

Every component used to build our products is designed and manufactured in house. We take control of the entire process to ensure only premium quality across our entire range. We don't use any off the shelf components.

## Lifetime Warranty

We're so confident in what we do, that we offer a lifetime warranty and five-year electrical cover on every single product. You won't find this kind of cover anywhere else.

## Safety Assured

Our units are put through extraneous third-party safety testing to ensure optimal mechanical strength, electrical reliability, heat/fire safety and are topple tested for stability. The LapCabby range is tested plus certified to the UL and CSA safety standards UL62368-1/2014 and CAN/csa c22.2 No.62238-1-14.

## Designs that work

Sliding shelves, retractable doors and wide access make it easier to get to your devices. Our specially designed cable management means you don't get any dangerous cable spaghetti. Rounded corners and shock absorbing bumpers keep walls and your teams safe. You name it, we've got it!

## Intelligent charge

Our unique power7 management and intelligent charging capabilities mean that you'll use power only when you need to so devices will never be overcharged. They also charge at the same time so are all ready to go when you need them most.

## Free Shipping

LapCabby is offering free shipping in the US on all of our units. No matter the device, environment or space, we have a solution to charge, store, sync, secure and transport it.

20  
Devices

**A.** Ergonomic ABS handles make UniCabby easy to maneuver.

**B.** Dual point locking system with lock and key located on top of the unit to avoid key breakages. The double sided key has two sets of teeth making the locking system more durable, impossible to pick and substantially increases security.

**C.** Inset colored door handles prevent protruding parts.

**D.** Fitted with 4 x 3" swivel, non-marking hospital grade rubber wheels (2 locking) making it easy to move.

**E.** Rounded corner extrusions and rubber bumpers protect the walls and devices when in transit.

1. Fixed individual shelves angle back slightly to allow devices to sit in place when moving the unit (1 device per shelf).

2. Each shelf has a cleverly integrated 5 point cable management system which neatly stores and secures cables.

3. Separate power compartment opened with a concealed handle for ultimate security. The built in **heat sensor** will shut off power if a device overheats or if interior temperature reaches 90+ degrees preventing risk.

4. Charges all devices simultaneously. **Power 7 Management System** manages the power consumption to ensure power surges do not occur and all devices charge efficiently. Power 7 features a sophisticated timer allowing three different charge schedules a day, 7-days a week. Power strips turn on one at a time, 1.5 seconds apart to provide inrush surge protection.

5. Secure back compartment houses excess cables and power strips and has individual cable pockets for each device to store AC adaptors.

6. Cable clip portholes that feed cables from the back power compartment to the front of the unit, preventing cables from being removed from the front.

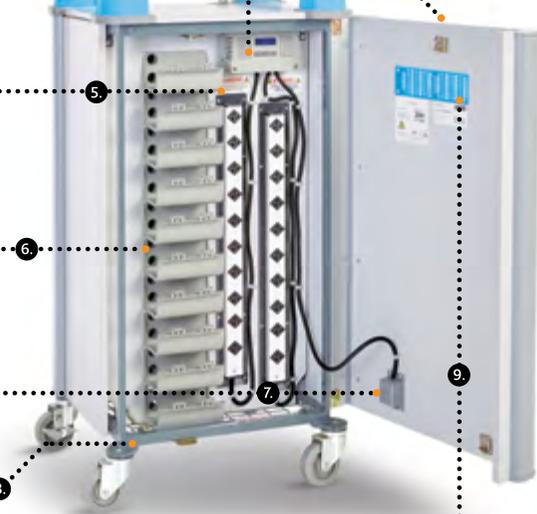

7. IEC power cable plugs into the mains and are designed to snap out if pulled away from the wall, preventing damage to the unit or any nasty trips.

8. Fully welded steel frame with weldmesh base for constant air flow. A 0.3" thick steel binding plate connects the heavy duty wheels to the frame to prevent loosening or buckling of the wheels.

10. Large L-shaped doors for easy access to device and power compartment.

9. Well placed vents allow constant air circulation, so no fan is required and devices charge in silence.

**1.** Charges all devices simultaneously with Lyte 16 models featuring a 'soft start' power management system which incorporates inrush surge protection, sequential start up and residual current protection.

IEC power cable plugs into the mains and is designed to snap out if pulled away from the wall, preventing damage to the unit or any nasty trips.

Power socket located within each individual compartment.

Air vents to the base and rear allow constant air circulation, so no fan is required and devices charge in silence.

0.5" grey MDF fixed shelves for extra strength

Lyte Wall 10  
SEE PAGE 35

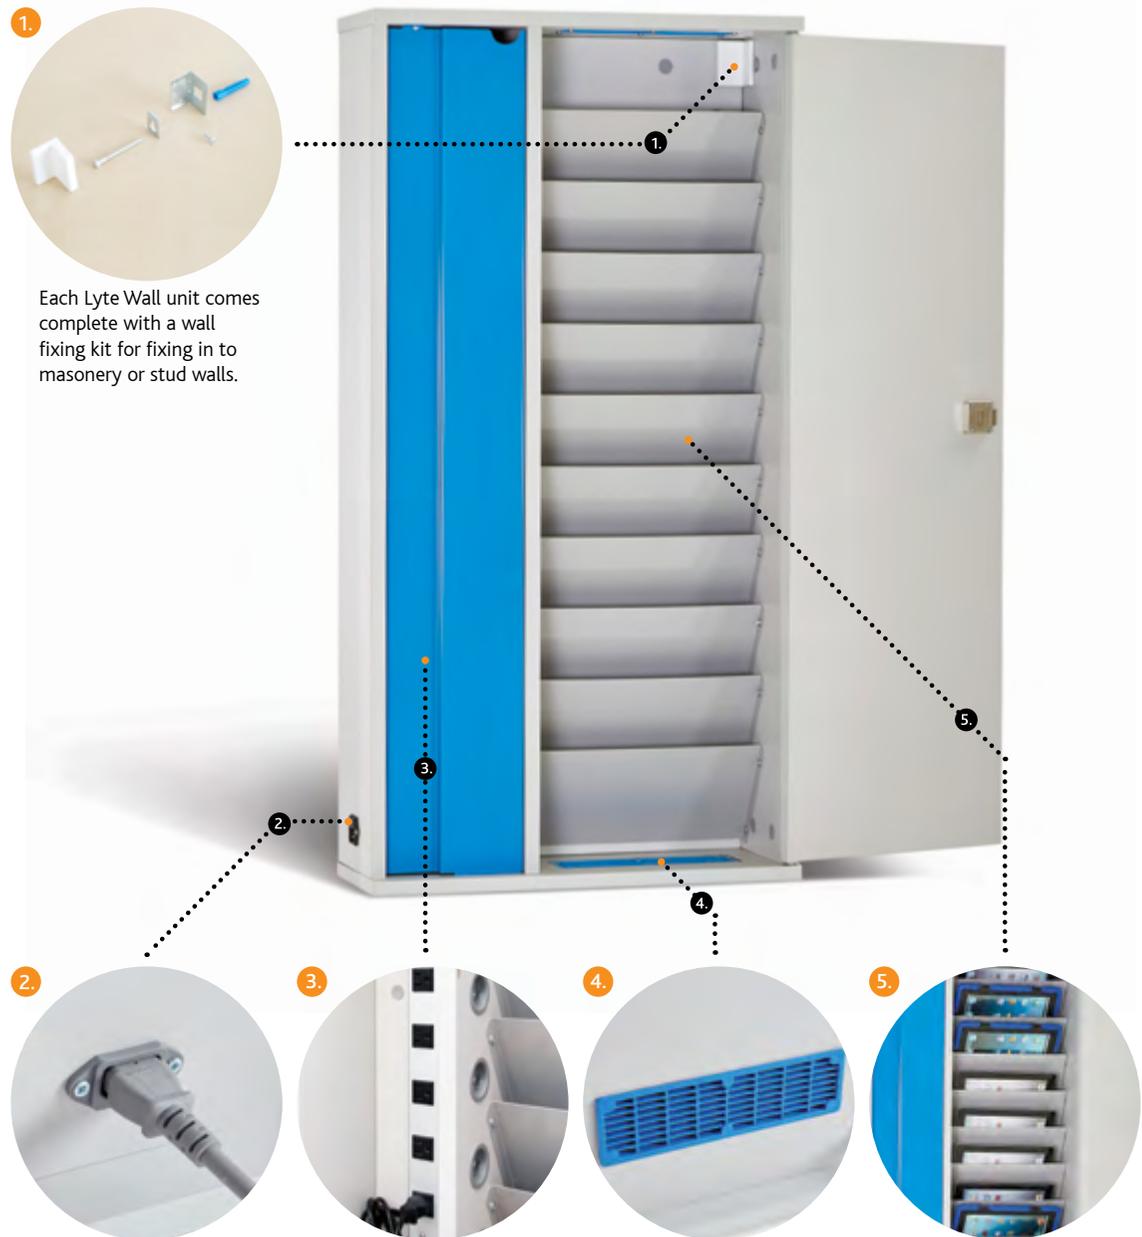

- A.** Colored inset door handle and power compartment cover. Handles sit flush to the door to prevent protruding parts being damaged.
- B.** Lyte Wall option is supplied with a key and lock that includes a 7 pin activation system, tested by an independent locksmith. The double sided key has two sets of teeth making the locking system more durable, impossible to pick and substantially increases security.
- C.** Isolated power compartment for electrical safety secured with a 16 gauge steel cover panel fixed with security screws to conceal the electrical components preventing cables from loss or damage.

Each Lyte Wall unit comes complete with a wall fixing kit for fixing in to masonry or stud walls.

IEC power cable plugs into the mains and is designed to snap out if pulled away from the wall, preventing damage to the unit or any nasty trips.

Cable clip portholes secure cables from the side power compartment to the device compartment, to keep cables in place and prevent damage.

Well placed air vents to the base and top allow constant air circulation, so no fan is required and devices charge in silence.

Slanted steel shelves allow devices to sit securely in place whilst allowing easy deployment.

Charge & Sync

A.

Charges and synchronizes up to 16 USB devices using Cambrix technology. Intelligent charging recognizes the make and model of each device and provides the exact rate of power according to the device manufacturers instructions, never over/under charges. Detects when device is fully charged and ceases to provide power.

B.

IEC power cable plugs into the mains and is designed to snap out if pulled away from the wall, preventing damage to the unit or any nasty trips.

1.

Boost+ Charge & Sync allows simultaneous synchronization of all devices using Apple Configurator, iTunes or any other 3rd party platform, saving you time when deploying apps, media and content. Easy to install firmware updates ensure your Boost+ Charge & Sync can charge and sync all the latest tablets, making it future proof.

2.

Connect two Boost+ together to charge and synchronize up to 32 devices at once.

3.

Designed specifically with portability in mind, this light weight unit is small enough to fit on to desktops, in to cupboards and only needs on IEC powercord to charge & sync every device.

- Stack and connect up to three DeskCabby units to store, charge and sync as many as 36 tablets.
- LED display indicating red when charging, green when fully charged and blue when in synchronization mode, all visible through the perforated door.
- Inset handles on each side allow easy lifting and moving. Alternatively, unit can be bolted down to secure in place.
- Retractable front door allows full access to devices.
- DeskCabby can be locked during charging, internal fan keeps devices cool.
- USB cables are connected in the rear locked compartment and fed through channels to the front device storage compartment, keeping cables and USB ports safe from damage. No third party cables necessary, use the cable that comes with the device for efficiency.
- DeskCabby Charge & Sync allows simultaneous synchronization of all devices using Apple Configurator, iTunes or any other third party platform, saving you time when deploying apps, media and content.
- IEC power cable plugs into the mains and are designed to snap out if pulled away from the wall, preventing damage to the unit or any nasty trips.

# Upgrades and Extras

Clever technology to enhance your favourite LapCabby solution

## LapCabby Connect

### Better connectivity with LapCabby Connect

The LapCabby Connect upgrade gives each laptop or netbook/Chromebook quick and easy WiFi access.

The integrated access point is kept secure and well-ventilated on the inside of the laptop trolley unit and can be accessed easily whenever you need it. LapCabby Connect laptop trolleys can store and charge between 10 and 32 laptops, netbooks or Chromebooks.

## LapCabby Ready 4 Connect

This option gives the same benefits as the LapCabby Connect, but allows you to use your own hardware.

## LapCabby UpLink

### Outstanding WiFi access with LapCabby Up-Link

Our LapCabby Up-Link upgrade comes with a WiFi access point that allows the computer trolley to be plugged into the school LAN, providing a wireless access point for the classroom.

The Up-Link laptop trolleys also use a Gigabit Network Switch. Allowing laptops to stay connected to the LAN even when they're charging, meaning they can be updated remotely overnight.

Clever internal wiring gives a neat and tidy finish with ventilated secure moulding, protecting against tampering while still providing easy access.

## LapCabby Ready 4 UpLink

This option provides the same benefits as the LapCabby Up-Link, but allows you to use your own hardware.

## We also offer...

Converter kits for LapCabby Minis

Lockable wall brackets securely fix your LapCabby in place

# MADE TO MEASURE UNITS

## From design to delivery

We understand that when it comes to device management, one size doesn't fit all. We can work with you, utilising our strong portfolio of the latest equipment in manufacturing to provide products that meet your specific requirements. From personalising units with your organisation's branding, to developing unique storage materials to meet your industry regulations. Our 96,000sqft purpose-built factory space means we are big enough to deal with large volumes but small enough to care.
