

LapCabby

New thinking in ICT storage

LapCabby Mini Range 20V / 32V

Our LapCabby Mini trolleys hold between 20 and 32 netbooks, tablets and Chromebooks, and, like all of our trolleys, they're designed to make your life easier.

In your LapCabby Mini you'll find all the usual innovative features that have made LapCabby into UK market leaders, such as programmable charging schedules and durable, colourful designs. You can find out what else you can expect from your LapCabby Mini on our features page.

The best thing about the LapCabby Mini, though, is its versatility. Its colourful, plastic storage boxes have been specially designed to hold either two smaller devices like tablets, netbooks and Chromebooks, or one laptop. They're just perfect if you use lots of different devices in your organisation.

LapCabby Mini Range Highlights

- ✔ Comprehensive safety testing – to the highest worldwide standards
- ✔ Stores and charges 20 / 32 Chromebooks, tablets, laptops or a mix of devices
- ✔ Sliding shelves with colourful storage boxes for vertical storage

New thinking in ICT storage

LapCabby Mini 20V

LapCabby Mini 32V

1. Coloured boxes that each vertically store 2 Chromebooks, netbooks or tablets (with or without cases) or one laptop, and protect them in transit

2. Compatible with any mobile device using chargers with standard electrical plugs, including iPads, Android tablets, e-book readers, Chromebooks, netbooks and laptops

3. Specially designed twisting cable clips moulded on to the boxes to keep cables in place

4. Individual cable pockets for each laptop to store AC adaptor and excess cables

5. Ergonomic coloured ABS handles make LapCabbys easy to get from place to place

6. Extremely durable wheels - ensuring the bespoke fixing solutions can handle tough terrain for the entire lifetime of the unit. The rubber tyres absorb noise and bumps delivering quiet transit while protecting devices. Rather than a castor plate screwed on to the base of the unit we welded the fixing into the frame and on to a specially designed thick metal plate

7. Power 7 energy management system allows you to programme up to 21 different automatic charging schedules, 3 for each day of the week

8. Locking mechanisms are on top to prevent broken keys, with a dual point locking system at the top and bottom of the door offering added security

9. Cable clip portholes that feed cables from the back power compartment to the front of the unit, preventing cables from being removed from the front

10. Separate power compartment opened with a concealed handle, allowing easy access to organise cables

11. Fully welded mesh base and side vents allow constant air circulation, so no fan is required and devices charge in silence

12. Inset, coloured door handles prevent protruding parts

13. IEC power cables plug into the mains and are designed to snap out if pulled away from the wall, preventing damage to the unit or any nasty trips

14. Fully welded steel frame, robust rubber wheels, and a welded binding plate offer ultimate strength and ensure wheels won't come loose or buckle

15. Large L-shaped doors and sliding shelves for easy access to laptops and storage compartments

16. Rounded corner extrusions and rubber corner bumpers protect the unit, walls and devices when you're on the move

17. When unit is switched on, power strips boot up sequentially (1 second apart) to avoid a surge on the power supply.

	Code	Number of Devices Can Hold	Trolley Dimensions	Device Compartment Size	AC Pocket Size
LapCabby Mini 20V	LAPM20V/AUS	20 Chromebooks / tablets, or 10 laptops	W616 x D703 x H1115mm 24" X 28" X 44"	W44 x D456 x H342mm 1.7" X 18.3" X 13.4"	W90 x D41 x H195mm 3.5" X 1.6" X 7.7"
LapCabby Mini 32V	LAPM32V/AUS	32 Chromebooks / tablets, or 16 laptops	W1015 x D703 x H1115mm 40" X 28" X 44"		

Materials	Heavy duty steel frame with strong MFC cladding
Finishes / colours	LapCabby loves a splash of colour! Trolleys can be personalised to match school colours, differentiate trolleys for different subjects or grades or just for fun! Classrooms are colourful - why put up with a black or grey square box? Blue, orange, lime, purple and charcoal!
Safety	All products are tested to the highest standard worldwide. USA: UL 60950-1/R:2011-12. Canada: CAN/CSA C22.2 No. 60950-1/A1:2011-12. Europe: EN 60950-1/A12:2011. Safety testing is a high priority to LapCabby. We don't release any products unless the trolley has been completely certified including electrics, materials, construction and components. Leading safety testing house we test the normal operating conditions of the product but also for faults, misuse, temperature, fire risk, electric shock and injury
Additional safety features	A heat sensor inside the Power7 automatically switches the unit off when the ambient temperature within a LapCabby reaches an unsafe level. An over heating device can be a fire risk so we have installed an additional heat sensor in every trolley. With the side vents and the weld mesh base our trolleys are kept cool around the clock
Fully assembled	Our products are delivered fully assembled. Or as we say ready to roll
Additional extras	No hidden extras, what you see is exactly what you get, everything you need is included! Power7 timer and energy management system, cable management, robust rubber wheels. We make sure we include everything you need to have a safe, efficient and bright trolley in the classroom, including rubber protective mats for the devices to sit on and cable management
Future proof	Yes, we have trolleys that accommodate laptops, Chromebooks and tablets at the same time and charge all devices simultaneously. It's handy to have a trolley that charges all sorts of devices all at the same time. The teachers laptop can be charged in the same trolley along side the students Chromebooks or tablets. Whether classroom devices get bigger or smaller, they'll fit in a LapCabby trolley for many years to come. Technology Cambrix future proofed
Cable management & ease of wiring	Separate compartment safely stores cables, cable management and electrics away. Once unlocked by hidden lever, full access to the cables make it quick and easy to wire up. Having complete access to the cable management reduces the time it takes to set the trolley up and means you don't have to squeeze your hands into tight spaces. If a charger needs to be removed or you need to access the electrical compartment you don't want to have to unload the entire trolley. For safety reasons, a locked compartment to store the electrical components is important, plus cables can go missing if they are accessible from the front of the trolley
Usable top surface	Yes
Simultaneous charging	All our trolleys provide simultaneously charging! Additionally the Power 7 timer and energy management system has 3 programmable charging schedules per day, 7 days a week which can be programmed to work around the classroom schedule and manual charge is also available in between. (LapCabbys efficiently charges everything all at the same time. Charging electrical strips individually means the overall charging time takes 2, 3 or 4 times as long! Who has time for that?)
Upgrades	LapCabby Connect upgrade gives each laptop or netbook/Chromebook quick and easy WiFi access. Ready 4 Connect option gives the same benefits as the LapCabby Connect, but allows you to use your own hardware - available on all Mini models
Testing certifications	 Safety tested to the highest level worldwide
Lifetime warranty	Lifetime warranty on all products and components, 5 years warranty on electrics. Product support for life! LapCabby offers the best warranty on the market (with no small print to consider. We make it easy to understand and we support our end users for the life of the product!)

About LapCabby

Clever technology solutions that tick all the boxes.

For twenty years we've been developing innovative products that our customers love. We make portable storage trolleys and charging solutions for laptops, tablets, e-readers, Chromebooks and netbooks. They're the smart way to keep your tech safe, charged, and in one secure place.

Developed over two decades with the help of customers and technology users, we've included some really ingenious features to ensure our products do everything you need them to – and a little more besides. Our trolleys are used everywhere, from schools, libraries and museums to restaurants and even laboratories, so wherever you are our products are sure to make a difference.
